

Hello

I am a motivated, hard working, responsible, creative and an extremely versatile person, presently studying design at Goldsmiths, University of London. I originally came to Goldsmiths on a study abroad program for the duration of two terms. I had previously been studying graphic design in New York for three years prior to coming to the UK. Goldsmiths appealed to me and my need for new experiences and also a challenging atmosphere. I ended up continuing on the course at Goldsmiths based on what it had to offer me and the uniqueness of the multidisciplinary course.

I'm interested in graphics, typography, conceptualisation, modernism,

the forces behind design and furthering my personal **experiences** in being a part of the **design world.**

[technical skills you might be interested to know..]

fluent in:
Adobe Photoshop,
Adobe Illustrator,

[design related work experience]

Freelance Design- Oswego NY 2005-2008
Part time design experience creating signs for local businesses, plus graphic design work, including magazines, newsletters, layouts, advertisements etc.

[recent experience]

This past summer I took part in designing the graphics publications for the promotion of 24hr Design and Make, an exhibition that was part of the London Design Festival 2008. This also included the exhibition itself where I worked in collaboration with a group of designers to create graphics rendering devices made from wfound objects.

Print Assembly- Oswego Printing Company 06-07
Running deliveries, assembling magazines, pamphlets etc.
Punctuality and precision were essential.

[employment]

Barbican Centre London 2008
Restaurant and Bar
Cashier- Raby's Ace Homecenter 02-04
Customer service -Meeting and greeting, running cashier, stocking shelves, requiring cleaning, counting profits and locking safes.
